

## Medical Grade Pressure Sensitive Adhesive

### Adapting Manufacturing Operations to Produce Medical Supplies in Response to Covid-19

As the demand for medical supplies increases across the world, manufacturing facilities are doing everything they can to help. Facilities are aiming to adapt their existing operations to manufacture medical supplies. Our customers from all industries are actively looking for solutions that allow them to adjust, reconfigure, or add operational pieces so that they can produce medical supplies quickly.

With over 500 field and lab-based technical experts around the world, H.B. Fuller is here to help. Experts are ready to help identify creative ways to adapt your operations and provide the right adhesive solution to meet your needs.

#### HM1902X

A medical grade hotmelt adhesive designed to adhere to the skin.

Apply the hot melt to the face mask in the areas you want it to adhere to the user and then cover with a release liner for packaging.  
The end user then can peel and stick the mask to their face.

HM1902X is a medical grade pressure sensitive adhesive that can be used to adhere PPE directly to the user's skin.

HM1902X is sold in 350lb drums and 31 lb boxes of pillows.

A heated drum unloading system or conventional hot melt tank is used to remove the material from the drum and the material can be applied manually or through an automated process.

### We are here for you.

Our thousands of scientists, application specialists, factory workers and customer support personnel at our facilities around the world continue to meet the needs of our customers during this disruptive time. Our adhesives enable manufacturers to produce medical devices, personal hygiene products, food products, filtration devices, tissue paper, baby diapers, bottled water and so much more. If you're concerned about supply or are not getting your needs met, call on us to help.

Ask H.B. Fuller how we can help expedite your operational changes and deliver solutions.
