Adapting Manufacturing Operations to Produce Medical Supplies in Response to Covid-19

As the demand for medical supplies increases across the world, manufacturing facilities are doing everything they can to help. Facilities are aiming to adapt their existing operations to manufacture medical supplies. Our customers from all industries are actively looking for solutions that allow them to adjust, reconfigure, or add operational pieces so that they can produce medical supplies quickly.

With over 500 field and lab-based technical experts around the world, H.B. Fuller is here to help. Experts are ready to help identify creative ways to adapt your operations and provide the right adhesive solution to meet your needs.

**IV/Fluid Management Bonding Tubing, Drip Chamber, Spike Cap, Injection Port and Connectors**

Secure and seal dissimilar plastic pieces of the IV kits.

**Laboratory and Test System Tube Sets and Plastic Component Bonding**

Fast curing between dissimilar plastics that are often difficult to bond. Viscosities enable replacement of solvent bonding.

**Secondary Tip Seal of Hypodermic Needles**

Provides high pull strength on small gauges.
We are here for you.

Our thousands of scientists, application specialists, factory workers and customer support personnel at our facilities around the world continue to meet the needs of our customers during this disruptive time. Our adhesives enable manufacturers to produce medical devices, personal hygiene products, food products, filtration devices, tissue paper, baby diapers, bottled water and so much more. If you’re concerned about supply or are not getting your needs met, call on us to help.

Ask H.B. Fuller how we can help expedite your operational changes and deliver solutions.
