Cyberbond CB

# ALL-IN-ONE SOLUTION

With our additional product program, we offer all-round carefree packaging for your cosmetic needs

## CB 600 Cyanoacrylate Conditioner

- Solvent-based conditioner for degreasing and preparing natural eyelashes before bonding with cyanoacrylates
- Airing time of three minutes under normal environmental conditions
- Prepares a defined surface by removing pollutions

## CB 900 Cyanoacrylate Remover Gel

- Softens, dissolves and removes cyanoacrylate adhesives
- Gel, which allows better application control and longer dwell time

## DT COS Cosmetic Adhesive Applicator

- For direct application onto the skin
- The rectangular finish of this special disposable applicator helps to distribute the adhesive with maximum accuracy

## CB 1280 SERIES CYANOACRYLATE ADHESIVES

Our Extension Adhesives focus on ingredients, ensuring the right performance features for you and your customers.
